

MBH

"During the requirements and development phases of our online Open Enrollment project, MBH provided the technical expertise that we needed to meet our tight deadlines. Experience and knowledge transfer were everything that we were looking for and they delivered."

*Technical Specialist, Information Systems
Cincinnati Children's Hospital Medical Center
7,000 employees*

"Post production support is just another example of MBH's commitment to make us successful. They worked around the clock in shifts to make sure we got the support we needed. We consider them to be a large part of our success."

*Project Manager
County of Santa Clara
15,000 Employees*

"Nancy is doing great! I am really appreciating her background and experience helping us through some very difficult discussions around system standards. She has helped Providence understand the implications of our current approach and offering optional ways to solve problems. This will help us reach our goals of a single integrated system."

*Manager of ProvConnect HR/PR Systems
Providence Healthcare Systems
33,000 employees*

"It's been wonderful to work with MBH. They are not only knowledgeable but also willing to share their knowledge. Their pleasant attitude also makes it easy for the City of LA staff to work together with them as a team."

*Director, Supply Management Systems
City of LA
36,000 Employees*

"The talent, professionalism and commitment demonstrated by MBH Solutions' people working on the staged Degussa implementations over the last two years has been exemplary. Their knowledge of the application, it's tools, as well as the HR, benefit and payroll business functions overall, added to their attention to detail, and willingness to give that little extra, puts MBH Solutions in a position I believe would be difficult for any other firm to meet or exceed."

*Manager, Human Resources Services
Degussa Corporation
8,000 Employees*

"When working with MBH I found their client service to be top notch. The responsiveness and technical expertise we received was very good. The team assigned to our account was well thought out. Our consultants included an individual who was expert in the technical areas of the system and equally important, if not more so, someone who also understood the business and HR side. This offered us the ability to make sure that the system set up and business rules were in line."

*Director, Human Resources
Ballard Spahr
500 Employees*

"MBH's knowledge in all aspects of HRIS solutions, including analysis, design, and implementation, make them the only choice when it comes to HRIS consulting. They are flexible, thorough, and provide seamless knowledge transfer. Plus, they're fun to work with."

*Systems Analyst
Metaldyne
6,000 Employees*

"I can attest to the timely, professional service that we have always received from MBH. The staff is very knowledgeable and willing to come up with creative solutions to our needs. Additionally, I appreciate the way MBH approaches our needs - as if you are a partner in our business rather than simply a consulting resource. You have added valuable suggestions beyond the scope of the specific project you're working on."

*Vice President - Human Resources
Robert Wood Johnson University Hospital (Hamilton)
